Chemical Corps Transformation

1. Emerging strategic environment
   - Proliferation of weapons of mass destruction
   - The threat to Homeland Security
   - Reduced response times from crisis to conflict
2. Requirement to conduct full spectrum operations
3. Evolving international reality
   - Terrorists or Rogue states possessing weapons of mass destruction
4. Evolving conduct of war
   - Adaptive, creative enemies
   - Pace and proliferation of new technologies
   - Aggressive and hostile ideologies intent on harming U.S. interests

CHEMICAL CORPS

. . . A Capability, both Vital and Relevant, for the Comb
Commander and the Joint Warfight

Mr. Merlin L. Erickson

The Chief's Philosophy

- **Taking care of People: Soldiers, civilians, and their families are the foundation of the Chemical Corps.**
- **Value to the Army: Providing CBRN defense capabilities to the Army in order to fight and win our Nation's wars.**
- **Relevance to the Joint Fight: More than reactionary – an ability to provide a strategically responsive Corps that is fully capable across the full spectrum of the military operations.**
